PRESIDENT'S MESSAGE TO THE SHAREHOLDERS

Maher sales increased a further 7% during 1975, with net income returning to more acceptable levels as a result of this gradual development. Key operating statistics showed progressive improvement.

Sales increased 17.9% from continuing stores and sales productivity per square foot increased 17%. These increases were a result of strong performances in the two largest areas of activity – the western division, which enjoyed another outstanding year, and the continuing improvement in the large Maher division.

The operating year of 1975 was characterized by opening 14 new stores and closing 28 stores. Some of the sales impact of these close-outs was transferred to the Barclay-Lanes partnership, a non-consolidated investment.

Increasing attention was focused during the year upon the control of debt levels

and special programs designed to improve inventory turnover in each division. We expect further improvement in the coming year, as we continue to strengthen the quality of our operations.

Ten to twelve new stores will be opened in 1976, and we are continually seeking additional opportunities to further enhance our profit and long term corporate goals.

We look forward with confidence to a good year for the company in 1976 given a reasonable continuation of the present atmosphere in consumer spending.

March 12, 1976

Thomas P. Wilson
President

MAHER SHOES LIMITED
(Incorporated under the laws of Ontario)
and subsidiary company

MAHER SHOES LIMITED

and subsidiary company

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Year Ended January 3, 1976

1. SUMMARY OF ACCOUNTING POLICIES

- (a) Basis of consolidation
The consolidated financial statements include the accounts of the Company and its wholly-owned subsidiary company, Copp The Shoe Man Limited.
- (b) Inventories
Inventories are valued at the lower of cost and net realizable value.
- (c) Investment in Barclay-Lanes Shoes
Barclay-Lanes Shoes is a partnership formed during the year, 50% of which is owned by the Company and the other 50% is owned by Savage Shoes (1970) Limited. The Company's share of the earnings of the partnership, which operates retail shoe stores, has been included in these financial statements on an equity basis.
- (d) Fixed assets
Fixed assets are stated in the accounts at cost. Depreciation charged to operations is based on the following:

Building	2½ % straight line
Fixtures and equipment	10 % straight line
Leasehold improvements	10 % straight line

It is the Company's policy to remove from the accounts the cost and accumulated depreciation of fully depreciated fixed assets.
- (e) Income taxes
The Company charges earnings with income taxes currently payable and also with income taxes deferred by claiming certain costs for income tax purposes in excess of related costs charged to income. The accumulated total of such income tax deferrals is reflected in the consolidated balance sheet as "Deferred income taxes".

2. LONG TERM DEBT

The 6¾ % sinking fund debenture is secured by a first floating charge on the assets of the Company. The more significant of the covenants of the Trust Deed restrict the Company from reducing consolidated working

capital below \$1,000,000 and from paying dividends on common shares if such payments would reduce consolidated working capital below \$1,250,000.

At January 3, 1976, the Company had a sinking fund credit sufficient to meet \$4,000 of the \$76,000 payment due in the year ending January 1, 1977. The payments required in 1977 and subsequent years average approximately \$106,000 per annum to April, 1987, the date of maturity.

3. LONG TERM LEASES

At January 3, 1976, the Company has entered into long term leases on retail outlets for periods expiring between 1976 and 1998. From the balance sheet date, these leases provide for minimum annual rentals over the next five years of approximately \$1,679,000, exclusive of taxes, percentage rentals and other related occupancy costs.

4. PENSION PLAN

Current service pension costs are charged to operations each year. Past service costs are being amortized over 14 years. At January 3, 1976, the actuarially computed present value of the Company obligations for unfunded past service costs to the Maher Pension Plan approximated \$450,000 after deducting \$47,000 charged to operations in the year ended January 3, 1976.

5. CHANGE IN YEAR END

During the year, the Company changed its year end from December 31 to the first Saturday in January.

6. OTHER STATUTORY INFORMATION

Remuneration of directors and senior officers amounted to \$229,000 (1974 - \$192,000)

7. ANTI-INFLATION LEGISLATION

The Company is subject to the Anti-Inflation Act which provides, as from October 14, 1975 for the restraint of profit margins, prices and compensation. The provisions of this Act should have no significant effect on the Company's earnings for the year ended January 3, 1976.

AUDITORS' REPORT

To the Shareholders of Maher Shoes Limited

We have examined the consolidated balance sheet of Maher Shoes Limited and subsidiary company as at January 3, 1976 and the consolidated statements of income, retained earnings and changes in financial position for the year then ended. Our examination of Maher Shoes Limited included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as we considered necessary in the circumstances. For Copp The Shoe Man Limited, the subsidiary company, we have relied on the report of the auditors who have examined their financial statements.

In our opinion these consolidated financial statements present fairly the financial position of the companies as at January 3, 1976 and the results of their

operations and the changes in their financial position for the year then ended, in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

The figures for 1974, included for comparative purposes, are based on the financial statements of that year, which were reported on by other chartered accountants.

MAHER SHOES LIMITED

INTERIM REPORT TO SHAREHOLDERS

Six Periods Ended July 3rd, 1976

TO THE SHAREHOLDERS:

For the six months ended July 3rd, 1976, company sales increased 9.5% to \$13,786,000 from \$12,588,000 for the corresponding period last year. Operations in the period under review resulted in a net loss of \$28,000 this year, compared to a net profit of \$133,000 last year.

The reduced profit performance in the first half this year has resulted from an overall company sales increase that was insufficient to offset the pressures being exerted by increased overhead and operating costs, and from reduced gross margins from additional markdowns in liquidating excessive spring and summer inventories.

We are encouraged by the continued improvement of our largest division, the Maher stores, which has enjoyed another significant sales and profit increase through the first half and, traditionally, the second half of the fiscal year produces much greater sales and earnings for the entire company.

Toronto, Canada

August 12, 1976.

T. P. Wilson,
President.

Share profit in both years is after preferred dividends, he said.

Geo. Linton.
